Custom Adoption Trailer 16 Dog Cages/6 Cat Cages

A custom built bumper pull trailer is approximately 8' x 18' (cargo capacity) and 8' x 21' (overall) with a height of 7 1/2' to accommodate 22 animal cages. The animals are viewable by the public from the outside of the trailer through the 1/4" clear lexan doors. The adoption trailer is built to the following specifications: There will be a sealant around the door frame to prevent debris from collecting between door frame and lexan.

Framing

- Basic floor framing is 2" x 2" x 14 gauge square steel tubing welded.
- Chassis is 5" steel channel welded
- Superstructure is all aluminum channels welded and .125-3" radius aluminum corners.
-

Insulation

- All walls, floor and roof have 2" foam insulation

Interior Features

- Floor of trailer is 125 aluminum tread bright with water tight seams
- Interior walls are 125 white FRP (fiberglass reinforced panels) or 040 white aluminum
- Interior ceiling is 040 white aluminum
- Interior lights are 7" scene lights with conventional switches. There are 4 located in the ceiling and 2 located on the right wall.
- Stainless steel cabinet and sink with water hose connection
- Top of cages can be used as storage shelf
- Desk area at front of trailer

Animal Cages

- Larger animal cages are 23" wide x 36" deep x 30" tall
- Animal cages are constructed of 1x1 stainless steel tubing welded and 20 gauge stainless steel partitions. The floors are 14 gauge stainless steel with 2" stainless steel drains
