Oakbrook Community Services Association

18208 Preston Rd. Suite D-9349

Dallas, TX 75252

Attn: Dietra Walter

Dear Dietra,

I live on Whispering Oak in the Oakbrook Community. Two years ago we lost our street sign. It was eventually replaced with the current sign which is completely different from the other street signs in the community, began peeling shortly after it was installed and looks terrible. Many of us on Whispering Oak are distressed by this rundown sign. We want a sign like the street signs on the other streets in the community, with permanent lettering and the Farmer's Branch logo. I'm sure this sign was purchased because it was cheap and that is just what it makes our street look like: a street that is less attractive than the other streets in the neighborhood. I would like to request a new sign be installed and would like this request to be addressed immediately.

We were also told that if any of the trees in the medians were destroyed by the repaving of the street, they would be replaced. We would like to see this acted upon so that our street, now that it's well-paved, will again look as inviting and well taken care of as the other streets in the community.

I thank the Board and the Community Services Association for their attention to these requests.

Dietra, would you please see that this letter reaches all the members of the Oakbrook Board of Directors? Thank you.

Marianne Griswold
