Professional Service Agreement for Rawhide Creek Bank Reconstruction

City Council | November 18, 2025

Requested by: Public Works Department

Background:

- In 2020, Freese and Nichols, Inc. conducted a visual assessment of stormwater infrastructure along Rawhide Creek, from Valley View Lane to Webb Chapel Road
- The assessment identified damaged gabions, drop structures, and creek erosion needing repair between Tom Field and Josey

Plans will include:

- The protection and reconstruction of creek banks where gabions have failed, including the development of up to three conceptual cross-section alternatives to evaluate different bank stabilization approaches

Plans will also include:

- The reconstruction of and additional protection for three hydraulic drop structures along Rawhide Creek

Fiscal Impact:

- The amount of the Professional Services Agreement is **\$320,725**. Funds are available in the Public Drainage Projects CIP project in the Stormwater Capital Improvement Program Fund
