Chief and Team,

I hope everyone has been staying safe with all the crazy weather we've had over the past few weeks.

I wanted to reach out to see about making another donation to the Farmers Branch Fire Department this year, in the amount of **\$1,500**. I know we have had some projects underway, and as always, you all have been incredible partners to us this year—just as you have been in years past.

I recall that last time any donation over \$1,000 required City Council approval, so please let me know the best path forward on your end.

Thank you again, and we truly appreciate everything you do for the community.
Clayton
