The applicant, BHCP Farmers Branch LP, is requesting approval of a Detailed Site Plan for a parking lot expansion (56 additional spaces) to serve the existing office building on the property located at 1801 Valley View Lane, generally at the northeast corner of Valley View Lane and Keenan Bridge Road. The subject site is approximately 13.6 acres and is located in Planned Development District No. 77 (PD-77), which allows for the existing office building use, and also for the parking expansion for that building. Chairman Moore asked for any questions.

Commissioner Bertl asked whether the outdoor seating area was covered.

Vice Chairman De Los Santos asked if the parking within the hatched area of the site plan and adjacent to the outdoor seating area was handicapped, and asked about handicap accessibility for both the building and outdoor seating area. Ms. Tina Firgens, Director of Planning, clarified that the handicap parking spaces are already existing near the building and handicap accessibility for this property had been reviewed previously, thus not part of staff's review.

C. PUBLIC HEARING

C.1 [19-SP-04](#) **Conduct a public hearing and consider the request for a Detailed Site Plan for a retail service use (child care facility) on a 1.702-acre tract located at 1400 Valley View Lane; and take appropriate action.**

The applicant, Byron Wells, is requesting approval of a Detailed Site Plan for a one (1)-story child care facility on the property located at 1400 Valley View Lane. The subject site is approximately 1.702 acres and is located in Planned Development District No. 99 (PD-99), which allows for the proposed use. The request also includes four Special Exceptions to the development standards in PD-99. Staff recommends approval of this Detailed Site Plan, including the requested Special Exceptions, as presented.

Ms. Jenifer Paz, Lead Planner, gave a brief presentation regarding the applicant's proposal.

Chairman Moore discussed the following: the location of the two (2) parking spaces designated for buses; building setback and street frontage requirements of Planned Development District No. 99 (PD-99) and how these requirements related to the applicant's proposal; whether it was the intention of PD-99 to require a building on the subject property to front Perrin Lane and the back of the building to face Valley View Lane; and the potential building orientation on the adjacent property.

Commissioner Yarbrough discussed the following: if staff had discussed with the applicant the possibility of rotating the orientation of the building; if lot number 32 indicated on the detailed site plan was intended to be a residential lot; and the location of the dumpster.

Commissioner Zavala asked if staff had received any feedback from Public Works regarding possible traffic congestion along Valley View Lane during times when students would either be dropped off at or picked up from the school.

Vice Chairman De Los Santos discussed the following: whether there would be additional interior lighting to compensate for the amount of natural lighting that would be lost due to the reduced fenestration for the building; and whether the kitchen would be used for cooking.

Hearing no further questions for staff, Chairman Moore invited the applicant to approach the podium, and Ms. Jovan Wells and Mr. Byron Wells, 528 Tuscan Drive, Irving, Texas approached the podium to give a brief presentation regarding the proposed development. Addressing Vice Chairman De Los Santos' question regarding the kitchen, Ms. Wells said that the kitchen would be used for food preparation and that the meals would be delivered to the school. Vice Chairman De Los Santos commented that should the applicant decide to use the kitchen for cooking, a grease trap would be required.
