Section C: Incentive Selection

I am applying for the following incentive:

Residential Demolition/Rebuild Incentive Program:

There are two (2) categories of residential structures that qualify for the program: (1) residential structures with an assessed value of One Hundred Thousand Dollars (\$100,000.00) or less, and (2) residential structures with an assessed value of more than One Hundred Thousand Dollars (\$100,000.00). The City will provide (i) a demolition incentive grant in the amount of Fifteen Thousand Dollars (\$15,000.00) and (ii) five (5) annual consecutive economic development incentive grants for residential structures to be demolished with an assessed value of One Hundred Thousand Dollars (\$100,000.00) or less. The City will provide (ii) a demolition incentive grant in the amount of Twelve Thousand Five Hundred Dollars (\$12,500.00) and (ii) five (5) annual consecutive economic development incentive grants for residential structures to be demolished with an assessed value of more than One Hundred Thousand Dollars (\$100,000.00). Each annual incentive shall be equal to one hundred percent (100%) of the difference between the City property taxes assessed and paid for the new improvements (the new residential structure excluding the land) for a given tax year and the City property taxes assessed and paid for the residential structure (prior to demolition) (excluding the land) for the tax year in which the structure was demolished (the "Base Year"). The five (5) annual incentives will be paid on April 1 of the calendar year beginning with April 1 of the calendar immediately following the calendar year in which a certificate of occupancy or completion is issued by the City following completion of construction of the new residential structure. The applicable demolition incentive will be paid as follows: (i) fifty percent (50%) of the demolition incentive within thirty (30) days after completion of the demolition and submission of a request from the property owner/contractor for payment and (ii) the remaining

³ If address for the residence for the demolition/rebuild program is different from the applicant's address in Section A, above.

fifty percent (50%) of the demolition incentive within thirty (30) days after a certificate of occupancy or completion is issued by the City following completion of construction of the new residential structure. Failure to timely commence and complete construction of the new residential structure will require the applicant to repay the demolition incentive to the City.

In the event the participant is a builder or developer, the annual incentive will be paid to the first owner occupant of the new residence who acquires the new residence after the completion of construction of the new residence and not to the developer or builder provided the new residence is sold to the first owner occupant within twenty-four (24) months after completion of construction of the new residence. The annual incentive would be paid on April 1 of the calendar year beginning with April 1 of the calendar year immediately following the calendar year in which the owner occupies the new residence pursuant to a certificate of occupancy or completion issued by the City for such owner occupant.

The City may consider incentives under this program for the applicant intends to purchase adjacent residential properties, demolish both residential structures, re-plot the two lots into a single lot and construct a new residential structure on the single lot. In such event the combined assessed value of the residential structures to be demolished shall apply for the determination of the base year assessed value for the annual incentive provided the new residential structure to be constructed on the single lot will have an assessed value following construction of at least two times the combined assessed value of the residential structures to be demolished. In addition only one demolition incentive will be provided.
