WHEREAS, Consultant has expressed a willingness to perform said work and services, hereinafter referred to only as "services", specified in said Scope of Work, and enumerated under Section 1, of this Agreement.

NOW, THEREFORE, for and in consideration of the covenants and promises made one to the other herein, City and Consultant agree as follows:

Section 1. Scope of Work

Upon issuance of a written Notice to Proceed by City, Consultant agrees to provide to City the necessary professional services related to the preparation of the **Phase D Farmers Branch Creek Flow Study 2014** ("the Project") and additional agreed services as set forth in the Scope of Work attached hereto as Exhibit "A" and incorporated herein by reference ("the Scope of Work").

Section 2. Term of Agreement

The term of this Agreement shall begin on the last date of execution hereof (the "Effective Date") and shall continue until Consultant completes the services required herein to the satisfaction of City, unless sooner terminated as provided in Section 10, below.

Section 3. Consultant Obligations

A. Consultant shall devote such time as reasonably necessary for the satisfactory performance of the work under this Agreement. Should City require additional services not included under this Agreement, Consultant shall make reasonable effort to provide such additional services at mutually agreed charges or rates, and within the time schedule prescribed by City; and without decreasing the effectiveness of the performance of services required under this Agreement.

B. To the extent reasonably necessary for Consultant to perform the services under this Agreement, Consultant shall be authorized to engage the services of any agents, assistants, persons, or corporations that Consultant may deem proper to aid or assist in the performance of the services under this Agreement with the prior written approval of City. The cost of such personnel and assistance shall be a reimbursable expense to Consultant only if authorized in writing in advance by City.

C. Consultant shall furnish and pay for all labor, tools, materials, equipment, supplies, transportation and management necessary to perform all services set forth in the Scope of Work.

Section 4. Payment

A. City agrees to pay Consultant for all services authorized in writing and properly performed by Consultant in accordance with the Payment Schedule set forth in the Scope of Work, subject to additions or deletions for changes or extras agreed upon in writing. All fees paid to Consultant, by City, shall be based on invoices submitted by Consultant for work performed monthly by Consultant, less any previous payments. Payments shall be made within 30 days of receipt of invoice by City. Unless otherwise stated in the Scope of Work, Consultant will submit invoices for services related to the Scope of Work on at least a monthly basis.

B. City reserves the right to delay, without penalty, any partial payment when, in the opinion of City, Consultant has not made satisfactory progress on the design of this Project based on the Scope of Work and the Completion Schedule Estimate. If City objects to any portion of an invoice, City will notify Consultant within fifteen (15) days from the date of receipt of the invoice and will pay that portion of the invoice not in dispute, and the Parties shall immediately make every effort to settle the disputed portion of the invoice.

C. The Total Fee shall be as specified in the Scope of Work, which shall not exceed **One Hundred Ninety-Five Thousand and No/100 Dollars (\$195,000.00)** unless otherwise approved in writing by City. City may deduct from any amounts due or to become due to Consultant any sum or sums owing by Consultant to City. In the event of any breach by Consultant of any provision or obligation of this Agreement, or in the event of the assertion by other parties of any claim or lien against City, or the City's premises, arising out of Consultant's performance of this Agreement, City shall have the right to retain out of any payments due or to become due to Consultant an amount sufficient to completely protect the City from any and all loss, damage or expense therefrom, until the breach, claim or lien has been satisfactorily remedied or adjusted by Consultant.

D. If City fails to make any payment due to Consultant within thirty (30) days after receipt of an invoice, then the amount due Consultant will increase at the lesser of 1.5 percent per month or the maximum amount allowed by law after the 30th day. In addition, Consultant may, after giving seven (7) days' written notice to City, suspend its services and any deliverables until Consultant has been paid in full for all amounts outstanding more than thirty (30) days. In the event that Consultant must resort to legal action to enforce collection of payments due, City agrees to pay reasonable attorney fees and any other reasonable costs resulting from such action.

Section 5. Responsibilities

A. Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all studies, designs, drawings, specifications, plans, and other services furnished by Consultant under this Agreement. Consultant shall, without additional compensation, correct or revise any errors or deficiencies in the design, drawings, specifications, plans, reports, studies and other services.

B. Neither City's review, approval or acceptance of, nor payment for any of the services required under this Agreement, shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and Consultant shall be and remain liable to City in accordance with applicable law for all damages to City caused by Consultant's negligent performance of any of the services furnished under this Agreement.

C. The rights and remedies of City under this Agreement are as provided by law.

D. City will designate in writing the person or persons with authority to act in City's behalf on all matters concerning the work to be performed by Consultant for City.

E. City will furnish to Consultant all existing studies, reports, data and other information available to City which may be necessary for performance of the work, authorize Consultant to obtain additional data as required, and furnish the services of others, where necessary, for the performance of the work. Consultant will be entitled to use and rely upon all such information and services.

F. Unless otherwise stated in the Scope of Work, City shall be responsible to provide Consultant access to the work site or property to perform the work.

Section 6. Time For Performance

A. Consultant shall perform all services as provided for under this Agreement in a proper, efficient and professional manner in accordance with City's requirements. Such services shall be completed as provided in the time provided in the Scope of Work after written Notification to Proceed from City to Consultant, exclusive of City and other governmental review time.

B. In the event Consultant's performance of this Agreement is delayed or interfered with by acts of the City or others, Consultant may request an extension of time for the

performance of same as hereinafter provided, but shall not be entitled to any increase in fee or price, or to damages or additional compensation as a consequence of such delays.

C. No allowance of any extension of time, for any cause whatever, shall be claimed or made to Consultant, unless Consultant shall have made written request upon City for such extension within forty-eight (48) hours after the cause for such extension occurred, and unless City and Consultant have agreed in writing upon the allowance of additional time to be made.

D. Consultant's services for the Scope of Work will be considered complete at the earlier of (i) the date when Consultant's report is accepted by the City or (ii) thirty (30) days after the date when Consultant's report is submitted for final acceptance, if Consultant is not notified in writing within such 30-day period of a material defect in such report.

Section 7. Warranty

A. In performing services, Consultant agrees to exercise professional judgment, made on the basis of the information available to Consultant, and to use the same standard of care and skill ordinarily exercised in similar circumstances by consultants performing comparable services in the region. This standard of care shall be judged as of the time and place the services are rendered, and not according to later standards. The expiration date of this warranty is one (1) year from the date of completion of the service. Reasonable people may disagree on matters involving professional judgment and, accordingly, a difference of opinion on a question of professional judgment shall not excuse City from paying for services rendered or result in liability to Consultant.

B. If any failure to meet the foregoing warranty appears during one (1) year from the date of completion of the service and Consultant is promptly notified thereof in writing, Consultant will at its option and expense re-perform the nonconforming work or refund the amount of compensation paid to Consultant for such nonconforming work. In no event shall Consultant be required to bear the cost of gaining access in order to perform its warranty obligations.

C. THE FOREGOING WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN, ORAL, IMPLIED OR STATUTORY, INCLUDING ANY WARRANTY OF MERCHANTABILITY. Consultant DOES NOT WARRANT ANY PRODUCTS OR SERVICES OF OTHERS DESIGNATED BY City.

Section 8. Documents

A. All surveys, studies, proposals, applications, drawings, plans, specifications and other documents, including those in electronic form, prepared by Consultant and its consultants, subcontractors, agents, representatives, and/or employees in connection with this Agreement ("Project Documents") are intended for the use and benefit of City. Consultant and its consultants, subcontractors, agents, representatives, and/or employees shall be deemed the authors of their respective part of the Project Documents. Notwithstanding, City shall own, have, keep and retain all rights, title and interest in and to all Project Documents, including all ownership, common law, statutory, and other reserved rights, including copyrights (except copyrights held by the Consultant) in and to all Project Documents, whether in draft form or final

form, which are produced at City's request and in furtherance of this Agreement. City shall have full authority to authorize contractor(s), subcontractors, sub-subcontractors, City consultants, and material or equipment suppliers to reproduce applicable portions of the Project Documents. All materials and reports prepared by Consultant in connection with this Agreement are "works for hire" and shall be the property of City. City shall have the right to publish, disclose, distribute and otherwise use Project Documents in accordance with the Engineering Practice Act of the State of Texas (Texas Occupation Code, Chapter 1001, as amended) and/or Texas Occupations Code, Chapter 1051, as amended. Consultant shall, upon completion of the services and full payment for the Consultant's services by the City, or earlier termination and appropriate compensation as provided by this Agreement, provide City with reproductions of all materials, reports, and exhibits prepared by ENGINEER pursuant to this Agreement in a TIFF, JPEG or PDF format, and a DXF format in current version of AutoCAD with NAD-83 coordinate format of all such instruments of service to the City.

B. All instruments of service (including plans, specifications, drawings, reports, designs, computations, computer programs, estimates, surveys, other data or work items, etc.) prepared under this Agreement shall be submitted for approval of City. All instruments of service shall be professionally sealed as may be required by law or by City.

C. Acceptance and approval of the Project Documents by City shall not constitute nor be deemed a release of the responsibility and liability of Consultant, its employees, associates, agents and Consultants for the accuracy or competency of their designs, working drawings and specifications, or other documents and work; nor shall such approval be deemed to be an assumption of such responsibility by City for any defect in the designs, working drawings and specifications, or other documents prepared by Consultant, its employees, contractor, agents and Consultants.

D. Consultant will retain the technical project file for a period of 10-years period following project completion. City shall notify Consultant at the completion of work if City requires the file in this matter to be transferred to City or another entity, or retained by Consultant for a longer period of time. In the absence of any written instructions to the contrary from City, Consultant will have the right to discard any and all files, records or documents of any type related to the Scope of Work after the 10-year period. During this 10-year period, any requests for document recovery and reproduction will be assessed a fee in accordance with Consultant's Schedule of Fees.

Section 9. Safety

A. City agrees to inform Consultant of any applicable site safety procedures and regulations known to City as well as any special safety concerns or dangerous conditions at the site, which Consultant shall communicate to its employees. Consultant and its employees will be obligated to adhere to such procedures and regulations once notice has been given.

B. Unless specifically provided in the Scope of Work, Consultant shall not have any responsibility for overall job safety at the site. If in Consultant's opinion, its field personnel are unable to access required locations or perform required services in conformance with applicable safety standards, Consultant may immediately suspend performance until such safety standards can be attained.

Section 10. Termination

A. City may suspend or terminate this Agreement for cause or without cause at any time by giving written notice to Consultant. In the event suspension or termination is without cause, payment to Consultant, in accordance with the terms of this Agreement, will be made on the basis of services reasonably determined by City to be satisfactorily performed to the date of suspension or termination. Such payment will be due upon delivery of all instruments of service to City.

B. Should City require a modification of this Agreement with Consultant, and in the event City and Consultant fail to agree upon a modification to this Agreement, City shall have the option of terminating this Agreement and Consultant's services hereunder at no additional cost other than the payment to Consultant, in accordance with the terms of this Agreement, for the services reasonably determined by City to be properly performed by Consultant prior to such termination date.

EXHIBIT “A”
SCOPE OF WORK
Farmers Branch Creek Flow Study 2014

- 1) Estimate evaporation losses from the Vitruvian Park reservoirs and the waterfall, cascading dams, and the new dam creating reservoir No. 2. Analyses will be performed on a monthly basis for 1954-2012 using TWDB quadrangle evaporation and precipitation data to estimate long-term averages, maxima, and minima. If local evaporation data are available from NWS (via TWDB), or from USACE at Lake Grapevine, those data can be used to estimate daily values for the last three years.
- 2) Develop monthly and, if possible, daily water quantity budgets needed by Addison to replenish water losses due to evaporation and/or seepage.
- 3) Perform baseflow stream discharge direct measurements of inflow and outflow from Vitruvian Park during typical winter conditions with no precipitation and low evaporation. Approved USGS stream discharge measurement equipment and techniques will be used. Measurements will be performed approximately three times per day for four consecutive days during daylight hours in January-February. Recirculation pumps will need to be turned off during the study. This task includes one training site visit for the project manager. Measurements will be performed by local TRC staff.
- 4) Using the data gathered in item number 3 and evaporation data from Lake Grapevine or other local source, estimate seepage gains or losses from the reservoirs.
- 5) Determine water quality of groundwater from the make-up-water well. Collect three samples and compare data with Chapter 307 TSWQS for stream segment 0822 (Elm Fork of Trinity River below Lake Lewisville Dam), which is the receiving water downstream from Farmers Branch Creek. In addition, hazardous metals plus iron (common in the Woodbine aquifer) will be included. Analytes will be:
 - Chloride
 - Sulfate
 - Total Dissolved Solids
 - pH (field measurement)
 - Total alkalinity
 - Total Metals: arsenic, barium, cadmium, chromium, copper, iron, lead, manganese, mercury, nickel, selenium, silver, zinc

The cost of laboratory analyses is not included. It is assumed the laboratory will bill the City directly.

- 6) Review the well log and other data regarding the existing well, other wells in the area, and the Woodbine aquifer. Use existing data to prepare calculations and models to determine if the existing water well can meet the water quality and quantity needed now and in the future.

- 7) Prepare draft and final technical memorandum summarizing the results of the study.
- 8) OPTIONAL TASK: Prepare a presentation and present to the City and/or other stakeholders.
- 9) Perform records search and gather information from different federal and/or state agencies pertaining to water quality or flow calculation estimates
- 10) Perform additional water quality sampling and analysis of Farmers Branch Creek related to the Town of Addison water rights permitting.
- 11) Perform additional flow testing of Farmers Branch Creek related to the Town of Addison water rights permitting.
- 12) Review, assess, and/or comment on technical submittals by the Town of Addison and/or their consultant(s).
- 13) Attend meetings regarding with City staff at the Texas Commission on Environmental Quality.
- 14) Attend mediation(s) with City staff and Town of Addison representatives.
- 15) Potential expert testimony for contested case hearing regarding Town of Addison permit amendment request.

COST: The work (Tasks 1-7) will be performed on a time and materials basis with a limit not to exceed \$34,760 without prior client approval. The cost of optional Task 8 is estimated at \$5,600. Work performed by Consultant for Tasks 9 through 15, inclusive, after April 1, 2017, shall be at Consultant's Standard Rate Schedule as set forth in Attachment 1 to this Scope of Services. The Parties agree that all work performed prior to April 1, 2017, has been invoiced and that the costs for such services shall be as stated on said invoices.
