2. Minimum roadway paving width: 49 feet

E. Minor Street (Undivided):

1. Minimum right-of-way width: 64 feet
2. Minimum roadway paving width: 44 feet

III. BUILDING SETBACKS: All structures constructed on property located within PD-77 shall comply with the following minimum building line setbacks:

A. Front: Structures shall be setback a minimum distance from the right-of-way line along the frontage of streets as described below with respect to each category of street, and such front setbacks shall be required on all sides of any structure facing on the street. Front setbacks shall apply to all parts and variations in heights of structures.

1. **Major Street:** Structures shall be setback a minimum of 50 feet from the street right-of-way line.
2. **Secondary Street:** Structures shall be setback a minimum of twice the building height from the street right-of-way line, except where such street has a landscaped median of at least 50 feet in width, in which case the minimum structure setback from the street right-of-way line shall be a distance equal to the height of the building.
3. **Minor Street:** Structures shall be setback from the street right-of-way line a minimum distance equal to the height of the structure.

B. Side: No minimum setback shall be required from side property lines except that a side setback shall be required such that structures in adjacent properties shall be no closer than 20 feet, with such area remaining permanently unobstructed for fire access purposes.

C. Rear: No minimum setback shall be required from rear property lines except for rail access purposes and except that a rear setback shall be required such that structures on adjacent properties shall be no closer than 20 feet, with such area being permanently unobstructed for fire access purposes.

IV. SITE COVERAGE: No building or accessory building shall be constructed which, in the aggregate, would cover more than 50 percent of the total lot area. The remaining area may be utilized for surfaced parking or maneuvering area, and landscaping.

- V. **OFF-STREET PARKING:** Surfaced off-street parking shall be provided adequate for all of the parking requirements of the use to eliminate the need for on-street parking. As a minimum, the following shall be required, whichever is greater:

A. **Parking in relation to personnel:**

- a. 1 space for each 1 ½ production or warehousing employee
- b. 1 space for each managerial personnel
- c. 1 visitor space for each 10 managerial personnel

B. **Parking in relation to building area (total floor area):**

- a. 1 space for each 1,000 square feet of gross floor area used for warehousing and distribution
- b. 1 space for each 500 square feet of gross floor area used for production or manufacturing
- c. 1 space for each 300 square feet of gross floor area used for office

C. **Site Positioning:** Off-street parking shall be setback from the right-of-way line of all streets adjacent to the property as described below with respect to each category of street:

1. **Major Street:** No paving shall be permitted forward of the building setback line except where such street has a landscaped median of at least 50 feet in width, in which case the minimum paving setback shall be 15 feet from the street right-of-way line.
2. **Secondary Street:** No paving shall be permitted forward of the building setback line, except where such street has a landscaped median of at least 50 feet in width, in which case the minimum paving setback shall be 15 feet from the street right-of-way line.
3. **Minor Street:** The minimum paving setback shall be 15 feet from the street right-of-way line.

- VI. **LOADING AND MANEUVERING:** Adequate area shall be required on the property for all loading and maneuvering of trucks and other vehicles such that such operations will not be carried out in the streets, and such areas shall be located and screened as described below with respect to each category of street:

1. **Major Street:** No loading doors shall face the street nor be placed on the sides of buildings for a distance of 65 feet from the building setback line.
2. **Secondary Street:** Loading doors may face the street if the building is setback not less than 80 feet from the street right-of-way and screening of the loading doors from the street is constructed. Loading doors may be located on the sides of

buildings that are located closer than 65 feet from the building setback line if screening of the loading doors from the street is constructed.

3. **Minor Street:** Loading doors may face the street if the building is setback not less than 80 feet from the street right-of-way line and that the loading doors are constructed to screen the doors from the street. Loading doors may be located on the sides of buildings.

VII. SCREENING: Screening shall be constructed and/or installed as follows:

- A. All roof-mounted equipment shall be screened on all sides.
- B. Any allowed outside storage shall be screened from all sides on a street.
- C. All loading areas requiring screening shall be screened on all sides fronting on a street.
- D. Screening shall, at a minimum, consist of a solid opaque man-made fence or wall, not less than six (6) feet nor greater than eight (8) feet in height, and shall be architecturally consistent with the adjoining structure.
- E. Gates, if provided at drives, need not be solid or opaque.
- G. The type and location of screening shall be shown on the detailed site plan and shall be located no closer than 15 feet to a street right-of-way line.
- H. Loading areas which are allowed to face the street may provide as alternative screening a landscaped area adjacent to the street of not less than 25 feet wide with an earthen berm averaging five (5) feet in height.

VII. OUTSIDE STORAGE: Outside storage shall be allowed only subject to approval of a Specific Use Permit (SUP) regardless of the primary use, either as an accessory use or a primary use. No outside storage shall be allowed on any side of a building fronting a street, except that display areas in front of a building and outside storage in the area of a lot siding on a street may be permitted as a part of the site plan. All allowed outside storage, except such display areas as may be approved, shall be screened on all sides fronting on a street. No allowed outside storage may extend above the height of the screening wall or fence.

VIII. SITE LANDSCAPING: A landscape plan shall be required for each site. Parking areas visible from the street shall be broken up with vertical landscaping and shown on the landscaping plan. Not less than five (5) percent of the total property area shall be landscaped between the building and all street right-of-way lines. As a minimum, the following landscaping shall be required to be installed along the following street categories:

- A. **Major Street:** Paving areas (except drives) located closer than 50 feet to the street right-of-way line shall be screened from the street with a landscaped earthen berm averaging three (3) feet in height. Where no paving is forward of the building line, trees shall be installed in the front yard at irregular intervals at the rate of no less than one tree per 30 lineal feet of front property line.
 - B. **Secondary Street:** Paving areas (except drives) located forward of the building setback line shall be screened from the street with a landscaped earthen berm averaging three (3) feet in height. Where no paving is forward of the building line, trees shall be installed in the front yard at irregular intervals at the rate of no less than one tree per 30 lineal feet of front property line.
 - C. **Minor Street:** A landscaping area with a width of not less than the required building setback shall be installed; provided, however the required width shall not exceed 15 feet. Such landscaped area shall be planted with trees or other vertical landscape material at the rate of no less than one tree per 30 lineal feet of front property line.
- IX. SIGNS:** No billboards or advertising signs other than those identifying the user, nature of the business, and products located on the property on which the sign is located shall be allowed. All signs shall be affixed at ground level or on the face of the building. Only two signs shall be permitted for each site, and shall be of a design and material consistent with the building itself. The only other allowed signs would be of a directional nature, or temporary signs indicating “for sale” or “for rent”.
