Subject: RE: FARMERS BRANCH SITE

Follow Up Flag: Flag for follow up
Flag Status: Flagged

Andreea,

Due to the various comments and questions that we have received and the recent completion of the PD text, we would like to request that we present our case to the Planning and Zoning Committee on August 13, 2018, and not on Monday, July 16, 2018 as previously discussed.

We feel that we will require more time to coordinate with our engineer, our architect and our builder to answer the questions that the City has raised regarding setbacks, dimensions, property lines and easements. We also would like to have time to review the PD thoroughly and discuss internally.

We feel strongly that we are close to completing a successful agreement with the City, but we would simply like to be careful and thorough in our responses to the City. Further we would like to have a follow-up meeting with the City in approximately 10 days to review the comments and solutions, to ensure that we are continuing to provide the best product for us and you.

Thank you,

Kyle
