Vision & Goals for the Corridor

Vision:

The IH-35E corridor is the **front door** to Farmers Branch and a **world-class place to live** *and* **do business** in the Dallas-Fort Worth metroplex. It offers space and access for a wide range of businesses looking to grow and expand, and a range of housing and amenities for residents. Visually the corridor is an attractive gateway that reflects the City's reputation for excellence.

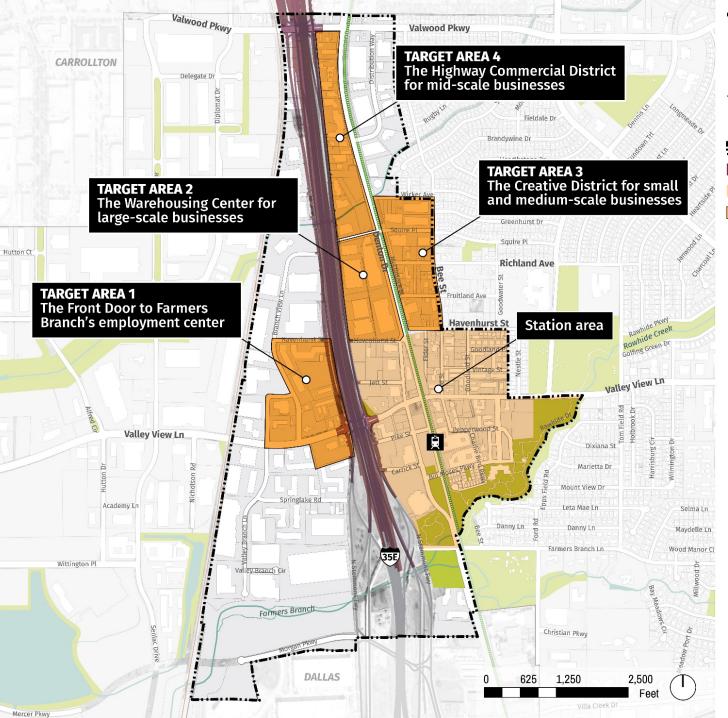

Goals:

- Create a modern urban industrial district with opportunities for mixed use development and highway-oriented commercial amenities, in order to leverage existing assets and increase property values along the corridor;
- Extend the Station Area mixed use development to the west side of IH-35E in order to form a cohesive new "front door" appearance along Valley View Lane, consisting of dense, compact, walkable development;
- **Improve the appearance of the corridor** to create a visually enticing experience along IH-35E through property upgrades and attracting new businesses;
- **Green the corridor** through increased landscaping and establishing corridor-wide initiatives so it better matches the City's reputation as a "City in the Park"; and
- Connect the Farmers Branch community on both sides of IH-35E through improved aesthetics and infrastructure that is accessible to all modes of transportation.
