Consider approving Resolution No. 2020-56 authorizing Freese & Nichols, Inc. to develop a Capacity, Management, Operations and Maintenance (CMOM) Program for the City sanitary sewer system in the amount of \$75,000; and take appropriate action

BACKGROUND:

The Public Works Department negotiated a Professional Services Agreement with Freese & Nichols, Inc. to develop a CMOM (Capacity, Management, Operations and Maintenance) program for our sanitary sewer collection system. A CMOM program is a flexible, dynamic framework for municipalities to identify and incorporate widely accepted wastewater industry practices. The CMOM program will help manage, operate and maintain the sanitary sewer collection system.

Our sanitary sewer collection system was audited by the EPA (Environmental Protection Agency) in June 2017 and the EPA recommended staff develop a CMOM program to supplement our SSOI (Sanitary Sewer Overflow Initiative) agreement with TCEQ (Texas Commission on Environmental Quality). The development of a CMOM program will help staff prepare a new SSOI Agreement with TCEQ as the current agreement expires in December 2020. Cities that participate in a SSOI are not subject to formal enforcement for sanitary sewer overflows by the TCEQ as long as they are addressed by the agreement which is negotiated and signed by the City and TCEQ
