File #: 17-422, **Version:** 1

Receive an overview of the Neighborhood Partnership Program.

BACKGROUND:

At the December 13, 2016 City Council meeting, staff was asked to research a policy and bring forward a recommendation for partnering with neighborhoods. The proposed program provides guidelines and framework to work with our neighborhoods.

The purpose of this program is to build a collaborative and sustainable partnership between the City of Farmers Branch and the community through neighborhood enhancement projects. These projects are community driven and should help preserve the cultural identity of Farmers Branch while looking to a sustainable future.
